

## Why Join Us?

- We provide an avenue for children aged 12 years old & below to learn more about birds at no cost to parents or guardian.
- While learning about birds, children would be able to develop a new sense of appreciation for nature and wildlife especially the winged ones.
- In line with the government's efforts in promoting 1 Malaysia kids will get to meet more new friends from different backgrounds and schools as a member, where they will get the chance to exchange ideas and views.
- In the age of high tech where the internet is an integral part of children's life, healthy educational outdoor activities are becoming more of an oddity. Thus, through this club, we hope that the balance is restored.
